

Online AutoDraft for *iMIS*

Online AutoDraft is a suite of dynamic content items (DCI), also called iParts or web parts that can be plugged into a wCM/RiSE site. Online AutoDraft is based on the *iMIS* SOAs and our extended SOA for AutoDraft (AutoDraft Entity Manager). Online AutoDraft supports Fundraising Contributions and Membership Dues in *iMIS* 20 (dues payments are processed as cash-based invoices). The Online AutoDraft suite consists of the following dynamic content items:

1. Enrollment
2. Product Selector
3. Payment Details
4. Submit Order Button
5. Order Confirmation
6. Product Grouping
7. Donation Tracker
8. Invoice Link
9. Existing Drafts Editor
10. Discount Configurations

Features

Online AutoDraft allows your members the ability for online self-service. Your members/donors can enroll in AutoDraft during a join/renewal or during an online donation.

Your staff has the flexibility to personalize the verbiage in the Enrollment iPart with enrollment instructions unique to your message.

You have the ability to configure the iPart to allow for all or selected products for online enrollment.

Staff has the opportunity to determine the frequencies and period for draft dates.

An authorization checkbox is also provided for disclaimers. It can be configured to turn on/off and you have the freedom to update the text/message in just minutes.
